

SECRET  
63-6356

9 August 1963

MEMORANDUM FOR: Mr. Knoche

SUBJECT: Congressional Items for DCI Consideration

25X1  
1. Request of Congressman Feighan for meeting with the DCI on the [redacted] case. I have prepared a memorandum on congressional aspects which is an attachment to a full memorandum by DD/P on all aspects of the case which should be in your hands Monday. The ball is with us and we owe Feighan a call.

2. Senate Foreign Relations Committee. We have been advised by Fred Dutton that this Committee will want the DCI on the nuclear test ban treaty for hearings on 16 August. This has not been checked with the Committee.

3. House Foreign Affairs requested the Director for the week of 5 August on the nuclear test ban treaty. Upon learning the DCI was out of the city, the Committee said they would be pleased to hear from General Carter who asked me to get him out of this which I did. Therefore, there is a request from that Committee for the DCI and we owe them a call to suggest a time.

4. The Joint Committee on Atomic Energy raised the question of DCI appearance and then dropped it but undoubtedly will be asking for him as undoubtedly will the Senate Preparedness Investigating Subcommittee which has been conducting hearings for some time including a hearing with Foster and Bradbury today.
